

LifeGift Partners with HCA Houston Healthcare Kingwood

The Donate Life Flag Honors Organ, Eye & Tissue Donors and Their Families

HCA Houston Healthcare Kingwood proudly displays the Donate Life flag in honor of all those who give the gift of life through organ and tissue donation. This tribute celebrates donors and recipients whose lives have been affected by organ, eye and tissue donation.

LifeGift in partnership with HCA Houston Healthcare Kingwood is offering families of organ and tissue donors the opportunity to display the Donate Life flag in honor of the legacy left by their loved one through organ donation. At the conclusion of each observance, LifeGift will present the donor's flag to the family.

"Giving the gift of life is one of the most selfless legacies a person can leave behind. LifeGift works with our hospital partners, incredible hospital staff and brave donor families to honor those who made the decision to say "yes" to organ, eye and tissue donation by participating in the Donate Life Flag Program," says Alisa McCusker, LifeGift donation system specialist.

This ceremony for the family demonstrates our deep gratitude and respect for those offering hope to others. When you see the Donate Life flag displayed, you will know that someone is being honored for generously offering the gift of life.
